Everyone knows this problem:

A large bag is opened but you only need a small part of the content.

The opened bag is now difficult to carry, the content is influenced by air, moist, dust and vermin.

After some time the expensive content isn't usable anymore or the open bag falls over and the content is spilled on the floor.

CARRY-FIX is the patented aid to seal, carry and store opened bags.

CARRY-FIX is a simply and strong solution for;

Professional builders and DIY

Plaster, jointing compound, cement, sand, adhesives, and other powder based products in bags

Catering industry and bakeries

Flower, salt, sugar, rice, etc. in bags

Animal owners

Cat litter, dog-, cat-, bird-, horse-, and cattle food in bags

Gardeners

Garden soil, seeds, peat-soil, artificial manure, etc. in bags

Hobby and leisure

Charcoal, wood flakes, spaying salt, etc. in bags

CARRY-FIX offers new sales opportunities for distributors and stores for professionals.

CARRY-FIX is the ideal give-away-article on exhibitions or as a premium present for loyal customers.

CARRY-FIX supplied in the standard colors blue, orange and turquoise.

It is possible to supply CARRY-FIX in your company color* and/or can be printed with your companies logo*. (*minimum quantities and/or extra costs are applicable)
